Buffelgrass.

From Southern Rhodesia. Seeds presented by the Grasslands Research Station of the Federal Ministry of Agriculture, Marandellas. Received October 30, 1957.

243198. Chipinga Strain.

243199. Grasslands Strain.

243200 to 243214. RICINUS COMMUNIS L. Euphorbiaceae.

Castorbean.

From Brazil. Seeds presented by the Instituto Agronomico do Leste, Ministerio da Agriculture, Salvador Bahia. Received October 30, 1957.

243200. No. 1.

243208. No. 9.

243201. No. 2.

243209. No. 10.

243202. No. 3.

243210. No. 11.

243203. No. 4.

243211. No. 12.

243204. No. 5.

243212. No. 13.

243205. No. 6.

243213. No. 14.

243206. No. 7.

243214. No. 15.

243207. No. 8.

243215. QUERCUS HISPANICA var. DENTATA (Wats.) Rehd. Fagaceae.

Oak.

From Great Britain. Seeds collected by F. G. Meyer, agricultural explorer, Plant Introduction Section, Crops Research Division, Beltsville, Md. Received October 30, 1957.

From the Royal Botanic Gardens, Kew, England.
